

POINTGUARD

A single-direction traffic controller that prevents unauthorized access at any entry

OVERVIEW

PointGuard by Apex Fabrication is a cost-effective, low-maintenance, unattended single-direction traffic controller for preventing aggressors from accessing unauthorized exit and entry locations.

BENEFITS

- ▶ Disables vehicles
- ▶ Minimizes vehicle damage
- ▶ Provides unlimited lane width coverage
- ▶ Requires no excavation

INSTALLATION

PointGuard can be professionally installed by our in-house technicians or contracting partners. This will ensure the highest quality installation and best service throughout the project.

FEATURES

- ▶ Powder coated frame (optional colors available upon request)
- ▶ Optional galvanized & painted frame for additional corrosion resistance
- ▶ Cadmium-plated spike assembly
- ▶ Lockable spikes for reverse access
- ▶ Removable and/or reversible design
- ▶ Modular 3' sections
- ▶ Low-profile ramp height of 2"
- ▶ Spring return spike operation, no electric required
